

## PRINCETON CARE CENTER

Title: Outbreak Response Plan for Phased Reopening of Long-Term Care COVID-19.	Date: 08-11-2020	Executive order: NO. 20-026 N.J.S.A. 26:2H-12.87
<p><b>PURPOSE</b></p> <p>The purpose of this Outbreak Management Plan at Princeton Center is to develop sustainable protocols to prevent the spread of COVID-19, prepare for any significant infectious disease outbreak, provide effective and clear communication with residents, their families or guardians, employees, and the public about any infectious disease outbreak as required by the N.J.S.A. 26:2H-12.87.</p> <p>Outbreak means any unusual occurrence of disease or any disease above background or endemic levels.</p>		
<p><b>PROCEDURE:</b></p> <p>This outbreak response plan details the following:</p> <ul style="list-style-type: none"> <li>➤ Strategy for communication with residents, their sponsors/guardians, and employees about an outbreak in the facility.</li> <li>➤ Emergency staffing plan.</li> <li>➤ Testing.</li> <li>➤ Infection preventionist.</li> <li>➤ Policies and protocol for testing of residents and employees who exhibit signs of communicable disease that could develop into an outbreak.</li> <li>➤ Reporting of an outbreak to the local public health and the New Jersey Department of Health (NJDOH).</li> <li>➤ Procedures to communicate and educate staff on prevention of transmission of communicable disease as applicable.</li> <li>➤ Methods of timely communication of information on the mitigating actions taken by Princeton Care Center to prevent and/ or reduce the risk of transmission.</li> <li>➤ Methods to provide weekly updates to residents and their sponsors or guardians.</li> <li>➤ Methods that will provide virtual communication to residents and when applicable their sponsor and /or guardians.</li> <li>➤ Policies on screening of individuals entering the facility.</li> <li>➤ Updates will be provided on number of confirmed cases of residents and employees.</li> </ul> <p><b>1. COMMUNICATION</b></p> <p>Strategy for communication with residents, families or guardians, employees, and the public about any infectious disease outbreaks pursuant to N.J.S.A. <u>26:2H-12.87</u> CMS rule: 42 CFR 483.80 (g).</p> <ol style="list-style-type: none"> <li>a. Communication will be via email by the administrator or his or her designee.</li> <li>b. A designated phone number will be provided as well on the Princeton Care Center website where messages will be retrieved and responded to daily.</li> </ol> <p>The following communication system will be utilized to provide timely and effective communication initially and weekly at a minimum to employees, residents, families, or guardians, and the public in the event of an “outbreak”. Notification will include the following:</p> <ol style="list-style-type: none"> <li>a. Number of residents and employees with suspected or positive cases of COVID-19.</li> </ol>		

- b. Deaths because of COVID-19.
- c. Personal Protective Equipment (PPE) supplies.
- d. Staffing shortage
- e. Resident census.

Residents, their families or guardians and employees will receive communication by 5pm the next calendar day following any subsequent occurrence of either:

- a. Each time a single confirmed infection of COVID-19 or Influenza virus is identified.
- b. Whenever three or more residents or employees with new onset of respiratory symptoms occur within 72 hours of each other.
- c. Any other occurrence that would curtail visitation.
- d. Outbreak plan will be posted on Princeton Care Center's website on or before October 10<sup>th</sup>, 2020.
- e. Weekly virtual information via ZOOM will be conducted on Wednesdays to provide for updates and to give families the opportunity to ask questions.

## 2. STAFFING

Princeton Care Center shall contract with staffing agencies and shall review and adjust schedules daily, hire additional health care personnel (HCP), and rotate HCP to positions that support resident care activities within Princeton Care Center. Additional guidance includes but is not limited to:

- a. Rotate internal HCP who work in other areas to support patient care activities in the facility as applicable.
- b. Princeton Care Center shall ensure these HCP have received appropriate cross- training.
- c. Initiate Staff Communication meetings to attempt to address social factors that may prevent HCP from reporting to work such as transportation.
- d. Identify additional HCP to work in the facility via contracted staffing agencies.
- e. Be aware of state-specific emergency waivers or changes to licensure requirements or renewals for selected categories of HCP assistance.
- f. Request that HCP postpone elective time off from work where applicable.
- g. Contact the office of emergency management (OEM) as needed.

## 3. TESTING OF RESIDENTS AND EMPLOYEES FOR COVID-19

Princeton Care Center will follow CDC, CMS and the NJDOH guidance for testing of residents and employees.

### RESIDENTS:

- a. Weekly testing for residents will not occur effective 08-11-2020 under new directive Executive order: NO. 20-026 N.J.S.A. 26:2H-12.87.
- a. Retesting of residents who previously tested positive will only occur if the resident is newly symptomatic consistent with COVID-19 symptoms.
- b. Retesting of residents who were confirmed COVID-19 positive will follow CDC and CDS guidelines.

- c. Routine testing will only occur if there is an outbreak in the facility and will continue until 14 days have passed with no additional cases.

#### EMPLOYEE:

Weekly testing of employees will be conducted effective with active symptoms indicative of COVID-19 regardless of when the most recent test was done.

- a. Employees who have no history of COVID-19 will continue with weekly testing.
- b. Retesting of employee who have previously tested COVID-19 positive will follow the CDC and the New Jersey Department of Health (NJDOH) guidelines and will occur 90 days after the first positive test.

#### 4. INFECTION NURSE (IP)

Attestation of having an (Infection Preventionist) IP Nurse will be done by the administrator. Princeton Care Center will enter a contract effective November 10<sup>th</sup>, 2020 and will have a fulltime IP no later than one (1) year of this Executive order: NO. 20-026 N.J.S.A. 26:2H-12.87. IP nurse hired 10/2020.

Responsibilities for the IP Nurse will include but not limited to the following:

- a. Developing infection prevention and control policies and procedures.
- b. Performing infection control surveillance.
- c. Providing competency-based training for staff and auditing adherence to recommended infection prevention and control practices.
- d. Staff compliance as per infection control practices, policies, and procedures.

#### 5 OSHA

Facility must develop and implement a respiratory program (RRP) that complies with the Occupational Safety and Health Administration (OSHA) respiratory protection standards for employees (due within 9 months of directive). The program requirements will include but are not limited to:

- a. Medical evaluation training.
- b. Fit testing implemented prior to Aug 10, 2020 due in 9 months for full completion.
- c. Will have available at all time 2 months stockpile of Personal protective Equipment (PPE), and essential cleaning and disinfecting supplies.
- d. Princeton Care Center will use the CDC's PPE Burn Rate Calculator. Calculator: [https://youtu.be/E\\_mhrROqJh0](https://youtu.be/E_mhrROqJh0). The calculator can be found at: <https://www.cdc.gov/coronavirus/2019-ncov/downloads/hcp/PPE-Burn-Rate-Calculator.xlsx>.
- e. Princeton Care Center will update attestation of stockpile in the event it was used and restock to continue to be following Executive Directive 20-026.

#### 6. REPORTING:

Effective Aug 10, 2020 Princeton Care Center will increase the reporting from weekly to biweekly to the NHSN. Reporting will include the following:

- a. Counts of residents and facility personnel with suspected and laboratory positive COVID-19.
- b. Counts of suspected and laboratory positive COVID-19 related deaths among residents and facility personnel.
- c. Resident beds and census.

- d. Staffing shortage.
  - e. Status of PPE and hand hygiene supplies.
  - f. Ventilator capacity and supplies for facilities with ventilator dependent units.
7. Princeton Care Center's administrator will send attestation before our facility can move to the next phase requirements for visitation and/or entry at Princeton Care Center.
- a. The front lobby is the designated area for visitors to be screened for signs and symptoms of COVID-19 prior to entering the building.
  - b. Prior to visitation they must notify the facility if they have had an exposure to someone with a confirmed case of COVID-19.
  - c. Princeton Care Center shall log and screen all personnel entering the facility and all staff at the beginning of their shift.
  - d. Copy of temperature log will be maintained.
  - e. Staff/visitors with temp greater than 100.4 F will be restricted from entering the facility with no exceptions.
  - f. No one under quarantine for either symptoms or for exposure will be allowed in the facility.
  - g. Everyone will complete a questionnaire about symptoms and possible exposure.
  - h. Visitors will be screened to determine exposure to someone with a confirmed diagnosis of COVID-19 or someone suffering from a respiratory illness.
  - i. Through the screening protocols we will identify if the visitor has been or has returned within 14 days from the designated list of states under the 14-day quarantine travel advisory and deny them from entering the building until quarantine is over.
  - j. There will be clear signage of social distancing in the front entrance for reference.
  - k. Hand sanitizer will be maintained at the entrance between the double doors and a sign asking for visitors to use the hand sanitizer prior to entering.
  - l. Visitors will be made aware via posted memo in the lobby during the screening that ONLY 2 visitors are allowed at one time for each resident visit.
  - m. Resident visits will be scheduled via the Director of Recreation on an appt basis only.
  - n. There will be a limit on how many visitors are allowed inside the building at any given time to allow for social distancing and proper infection control monitoring.
  - o. All visitors entering the building will be provided with a surgical mask that they must keep in place covering their nose and mouth during the entire visit if they do not have a mask.
  - p. Instructions on hand hygiene, on limiting surfaces touched, staying in assigned area for social distancing and not having interactions/physical contact with anyone other than the residents been visited.
  - q. Visits will be limited to 1-hour family per visit per resident who is in a private room where that visit can take place.
  - r. Residents that share a room will be assigned their visits in a common area designated by the facility.
  - s. Locations for visiting are designated as the Dining Rooms (DR) first floor and second floors, IVY Cafe' third floor and Feeders rooms on the second and third floors.
  - t. Visits cannot be scheduled during meals or resident activities.
  - u. Children under the age of 6 will not be allowed entry for visits
  - v. All visitors will be advised to monitor for 14 days after their visit for signs and symptoms of COVID-19 and they must contact the facility should they show any signs or symptoms of COVID-19.
  - w. Once we have received information of exposure to a confirmed case of COVID-19 of a visitor we will screen the resident by performing 2 COVID-19 test and isolate the resident for 14 days in their room or isolate them on the presumptive unit on the third floor.

8. The facility must receive informed consent from the visitor and the resident in writing that they are aware of the possible dangers of exposure to COVID-19 for both the resident and the visitor and that they will follow the rules set by the facility regarding visitation. The facility must receive a signed statement from each visitor and resident (if the resident is unable to consent then the consent needs to be signed by the authorized representative) with a copy provided to the visitor and resident that they are aware of the risk of exposure to COVID-19 during the visit that they will strictly comply with the facility policies during visitation.

9. COHORTING, PPE, and TRAINING REQUIREMENTS FOR EACH PHASE.

- a. Princeton Care Center will train all staff and provide staff with all PPE recommended for COVID-19 to the extent that PPE is available and will follow CDC guidance on optimization of PPE. Administrative staff while in a non-resident area can wear cloth masks.
- b. Princeton Care Center will have source control for everyone in the facility.
- c. All residents will practice source control when around others regardless if they have COVID-19 symptoms are not by wearing a surgical mask.
- d. Exemptions are residents who have difficulty breathing when wearing a mask, unconscious or incapacitated residents.
- e. We will have separate units for residents with COVID-19, residents that have symptoms of COVID-19, and person under investigation (PUI) residents.
- f. We will follow CDC and NJDOH guidelines to determine residents that have recovered from COVID-19 before discharge (D/C) from isolation.
- g. Princeton Care Center will follow NJDOH orders guidance and directive on admissions and readmissions.
- h. Princeton Care Center will accept residents who were tested for COVID-19 prior to admission/transfer or shortly thereafter.
- i. When discharging or transferring resident who must provide COVID-19 test results.
- j. Those residents who are discharged and had a pending COVID-19 test and soon after receives positive results of COVID-19 will be notified immediately by a Princeton Care Center employee. They will also be notified about any exposure as well.

INDOOR END OF LIFE, COMPASSIONATE CARE, ESSENTIAL CAREGIVER VISITATION.

- a. Princeton Care Center will allow family/guardian and responsible person to visit such residents.
- b. Princeton Care Center will allow residents who are covered by the American with the Disability Act or the Law Against Discrimination in all the phases pursuant to the following requirements, NJDOH directives and section (III)(2)(i) to (ix) of this directive.
- c. All residents on an End of Life situation can have visitors three times a week with the limit of 2 family members at a time for 1 hour based upon the resident's situation Princeton Care Center can increase the days of visitation.
- d. Princeton Care Center Interdisciplinary Team (IDC) will allow compassionate care visits for residents who were recently admitted, and that change may be a traumatic separation from the care giver. Princeton Care Center will also allow visits if their loved one in the community has passed and it may affect them negatively.
- e. Princeton Care Center can also allow visits for residents whose health status has suddenly declined.

- f. At any time, Princeton Care Center may go to phase 0. All visits will be canceled and allowed on a limited basis.
- g. Princeton Care Center's IP nurse will ensure that such visitors practice required infection control procedures such as hand washing and use the appropriate PPE while in the facility.

ESSENTIAL CAREGIVER VISITATION PURSUANT TO THE REQUIREMENT OF THIS DIRECTIVE:

- a. All residents may receive Essential Caregiver of their choice to visit except for those that are in a 14-day quarantine period, positive for COVID-19 and have not yet met the criteria for the discontinuation of isolation or symptomatic or persons coming to States of N.J
- b. The DON/ADON/IP nurse/ and the social worker will determine who meets the criteria of the essential caregiver
- c. The resident must be consulted about their wishes to determine whom to designate as the Essential Caregiver.
- d. Consider persons such as a family member, outside caregiver, or friend who provided regular care to the resident prior to the pandemic.
- e. Essential workers coming into the building must provide their weekly COVID-19 test to the IP nurse/designee.
- f. Any resident who expresses wishes to determine whom to designate as the Essential Caregiver such person can be a family member, outside caregiver, or a friend who provided care prior to the pandemic.
- g. Residents' may designate more than one caregiver, but their time will be split to provide care to the resident.
- h. Essential Caregiver will be allowed 2 hours per visit 1 day per week if Princeton Care Center is in Phase 0.
- i. Essential Caregiver will be allowed a total of 4 hours per week and visit 2 days per week if Princeton Care Center is in Phase 1 or 2.
- j. Essential Caregiver will be allowed their schedule prior to the pandemic when Princeton Care Center is at Phase 3.
- k. The schedule of all Essential Caregivers will be based on the number of all Essential Caregivers in the facility.
- l. IP nurse/designees will ensure that all Essential Caregivers practice safe infection control, hand washing and proper use of PPE.
- m. Residents with intellectual and/or developmental disabilities covered under ADA or state Law against Discrimination is allowed when Princeton care Center in Phases 1,2,3.

Princeton Care Center Requirement For Standard OF Services During Each Phase- PHASE 0 REQUIEMENTS.

- a. Princeton Care Center will screen and log all persons entering facility and all staff at the beginning of each shift.
- b. All non-essential persons will be prohibited from coming into the facility. Such services like barber, hair stylist, and volunteers will be prohibited from entering the facility.
- c. All residents will be monitored every shift with observations for sign and symptoms of COVID-19 and by monitoring vital signs: blood pressure reading, temperature, heart rate, pulse oximetry and respirations will be checked and recorded in the resident's records.
- d. There will be no communal dining when Princeton Care Center has an outbreak of COVID-19.

- e. All group activities will be limited as directed by IP Nurse and Director of Nursing/Administrator.
- f. Residents shall stay in their rooms and cohort will be done in accordance with CDC guidance.
- g. All non- medical trips will be cancelled.
- h. Any resident coming to a common area will wear facial mask and practice social distancing.
- i. Exemptions for wearing facial masks are residents who have trouble breathing, are incapacitated, and /or otherwise unable to remove the mask without assistance.
- j. All staff will have weekly COVID-19 testing until directed otherwise by NJDOH.
- k. Staff who have previously tested positive will be retested according to CDC and CDS guidance.

#### PHASE 1 REQUIREMENTS

- a. Princeton Care Center will screen and log all persons entering facility and all staff at the beginning and end of each shift.
- b. All non-essential persons will be prohibited from coming into the facility. Such services like barber, hair stylist, and volunteers will be prohibited from entering the facility.
- c. Communal dining will be for only residents who are COVID-19 negative and asymptomatic or recovered COVID-19 residents.
- d. All effort will be made to have same residents eat in the same room while practicing infection prevention and social distancing.
- e. There will be no more than 2 residents at each table. There will be graphic markings indicating 6 feet space between tables.
- f. All efforts will be made to assign /seat same small group of residents together each day.
- g. There will be no residents from other units combined.
- h. All effort will be made to keep staff working on the same unit and be assigned to same tables to minimize their contact with other residents.
- i. There will be no sharing of condiments and serving utensils.
- j. All chairs and tables will be sanitized as well as all high touch areas/surfaces before and after each meals/seating.
- k. Disposable utensils will be utilized. (if feasible disposable cups and utensils will be utilized).
- l. Staff will follow infection control protocols for cleaning used tableware and immediately serving food without proper hand washing. (staff should refrain from removing plates and tablecloths when residents are still eating).
- m. Nursing staff and or Activity staff will serve the residents and dietary/ housekeeping staff will clean the tables.
- n. Large group activities will be restricted in phase 1, there will be limited activities for COVID-19 negative residents and asymptomatic or COVID-19 recovered residents.
- o. During small group activities proper infection prevention and control precautions including social distancing measures will be taken. Princeton Care Center will follow NJ permissible indoor and outdoor gathering limitations.
- p. The Director of Recreation will ensure that the same residents are kept in the same group each day. And when possible, same staff will be assigned to same unit and group of residents. Group size will not exceed 10 residents.
- q. There will be no use of activity supplies that cannot be properly cleaned and disinfected. Each resident must have his/her own bingo card and tiles.
- r. Avoid non-medical trips outside the facility. Resident must wear face covering or mask.

- s. Nurse will screen residents daily on every shift with temperature checks, questions and observation for other signs and symptoms of COVID-19.
- t. All employees will continue with weekly COVID-19 testing until NJDOH changes the guidance. IP nurse will follow CDC and CDS guidance for staff who tested positive for COVID-19.

#### PHASE 2 REQUIREMENTS

- a. Princeton Care Center will screen and log all persons entering facility and all employees at the beginning of each shift.
- b. Princeton Care Center will allow limited indoor visitations by appointment only. Visitation will be based on CMS guidance and all visitors will be screened and logged.
- c. For medically necessary trips away from facility the resident must wear face mask in accordance with CDC guidance except for any resident who has trouble breathing, is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- d. Princeton Care Center will allow entry of non-essential personal in the facility.
- e. Personnel/contactors must be logged and screened prior to entry into the facility. This includes personnel providing elective consultations and non-elective services (barber, hair stylist).
- f. Such individuals are permitted access only to residents who are COVID-19 negative and asymptomatic or COVID-19 recovered residents.
- g. Princeton Care Center IP nurse will ensure that requirements for infection control prevention and control precautions including social distancing, wearing of face mask are followed by these non -essential personnel/contractors when in the facility are followed.
- h. Such personnel are restricted to designated areas only and must not be allowed to engage with employees and residents to whom they are not providing services.
- i. Communal dining will be for all residents who are COVID-19 negative and asymptomatic or COVID -19 recovered residents only.
- j. All effort will be made to have same residents eat in the same room while practicing infection prevention and social distancing.
- k. There will no more than 2 residents at each table. There will be graphic markings indicating 6 feet space between tables.
- l. All effort must be made to seat same small group of residents together each day. Residents from multiple units will not be combined.
- m. All effort will be made to assign nursing staff to work on the same unit and will be assigned to same tables to minimize their contact with other residents.
- n. There will be no sharing of condiments and serving utensils.
- o. All chairs and tables will be sanitized of all high touch areas/surfaces before and after each meals/seating.
- p. Disposable utensils will be utilized. (if feasible disposable cups and utensils will be utilized).
- q. Princeton Care Center will ensure that staff follow infection control protocols such as preventing the cleaning of used tableware and immediately serving food without proper hand washing. (staff should refrain from removing plates and tablecloths when residents are still eating).
- r. Nursing staff and or Activity staff will serve the residents and dietary/ housekeeping staff will clean the tables.

- s. Group activities will be limited to 10 residents including outings, for residents who are COVID-19 negative and asymptomatic or Covid-19 recovered residents.
- t. During outdoor group activities residents must maintain infection prevention and control measures including social distancing and wear facemask.
- u. All employees will have weekly COVID-19 test done until directed otherwise by NJDOH. Retesting of employees who tested positive for COVID-19 will follow CDC and CDS guidance.
- v. All residents will be screened daily every shift and as needed if any shows signs and symptoms of COVID-19.

### PHASE 3 REQUIREMENTS.

- a. We will screen and log all persons entering facility and all employees at the beginning of each shift.
- b. Princeton Care Center will allow limited indoor visitations by appointment only. Visitation will be based on CMS guidance and all visitors will be screened and logged.
- c. For medically necessary trips away from facility the resident must wear face mask in accordance with CDC guidance except for any resident who has trouble breathing, is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- d. Princeton will allow entry of non-essential personal in the facility. Personnel/contactors must be logged and screened. This includes personnel providing elective consultations and non-elective services (barber, hair stylist). Such individuals are permitted access only to residents who are COVID-19 negative and asymptomatic or COVID-19 recovered residents.
- e. Princeton Care Center IP nurse will ensure that requirements for infection control prevention and control precautions including social distancing, wearing of face mask are followed by these non-essential personnel/contractors when in the facility.
- f. Such personnel are restricted to designated areas only and must not be allowed to engage with employees and residents that they are not providing services to.
- g. Communal dining will be for all residents who are COVID-19 negative and asymptomatic or COVID-19 recovered residents only.
- h. All effort will be made to have same residents eat in the same room while practicing infection prevention and social distancing.
- i. There will no more than 2 residents at each table. There will be graphic markings indicating 6 feet space between tables.
- j. All effort must be made to seat same small group of residents together each day. There will be no residents from other units.
- k. All effort will be made to assign employees to work on the same unit and will be assigned to same tables to minimize their contact with other residents.
- l. There will be no sharing of condiments and serving utensils.
- m. All chairs and tables will be sanitized of all high touch areas/surfaces before and after each meals/seating.
- n. Disposable utensils will be utilized. (if feasible disposable cups and utensils will be utilized).
- o. Employees will follow infection control protocols of cleaning used tableware and immediately serving food with proper hand washing. (staff should refrain from removing plates and tablecloths when residents are still eating).

- p. Nursing staff and or Activity staff will serve the residents and dietary/ housekeeping staff will clean the tables.
- q. Resume resident group activities, including outings, for residents who are COVID-19 negative and asymptomatic or Covid-19 recovered residents.
- r. During outdoor group activities residents must maintain infection prevention and control measures including social distancing and wear facemask.
- s. All employees will have weekly COVID-19 test done until directed otherwise by NJDOH. Retesting of employees who tested positive for COVID-19 will follow CDC and CDS guidance.
- t. All residents will be screened daily and as needed for signs of COVID-19.

#### Lessons Learned in response to the COVID-19 outbreak:

##### EMPLOYEES

Employees screening and testing could have been initiated earlier during the outbreak as well as the use of PPE for staff and residents. The facility had enough PPE at the time but needed a stockpile. Educate staff about social distancing- staying 6 feet apart and reporting signs and symptoms of COVID-19. Educate employees including physicians who work in more than one facility about the risk vs the benefits of working only in one facility and offer extra work hours. Maintaining a nursing staff contract with an agency. Cross training employees is an asset during this type of emergency.

##### RESIDENT, SPONSORS AND STAFF

Needed more frequent updates about the COVID-19 in a formal manner due to the changing guidelines. This process would have helped emotionally and provide for a better understating of what the day to day operation was in the facility during the outbreak. Once the communication was increased notable decrease with calls and employee callouts.
